

MINIBARS

5590 Reflex® SAE Class I LED, 15"

The 5590 Series LED minibar features an innovative design combining Reflective and TIR Optic LED modules. The TIR Optic modules produce a highly intense, focused and long distance beam to the front and rear of the vehicle while the Reflective modules ensure optimum 360° coverage by producing a dispersed, wide-angle beam to the sides and corners. 5590 permanent mount models can be synchronized to operate multiple lights alternately or simultaneously.
